

Hi everyone, It's Linda Cannon and I wanted to invite you to a special group for the next few weeks. He is a fabulous photographer and is majoring in photography at VCU. If you want to have some fun, or if your wife, husband or older children want to learn how to take some awesome pictures, come join us.
We will only be accepting a limited number of students for this weekly clinic.

Justin is also available for private office lessons to help you gain confidence in using your own macro camera in your dental office.

I know many of you have a beautiful, expensive camera, just laying around in your office. Now is the time to utilize all of your equipment.

Call him today for times available and get an appointment for you and one of your staff members.

Photography Lessons

Instructor: Justin Phillips (757)291-9942 Justin@JCSPstudio.com

This photography class is designed to allow students with any level of experience the opportunity to learn photographic techniques from the most simple to the most complex.

Each class will run approximately 2 hours every Thursday and Friday, from 5:30 to 7:30 at a rate of \$25 per student per class. Class time will be split between technical instruction and shooting time.

Classes will be held at a variety of locations that will allow students to take what they are learning and put it into immediate practice.

Students will learn how to determine proper exposure settings based on their lighting situations and subjects as well as learning the functions of different cameras, lenses, films, flashes, and other devices and how they effect the images the camera captures.
